"I own an accounting & financial business. My brain thinks in numbers and strategies. When I asked Tina to help me with designing posters for marketing purposes, she came up with pictures that matched my ideas for my business. She took my vague ideas and translated them into something visual and eye-catching, adding a lot of effort and fine-tuning to the process. Tina knows her stuff, both creative as well as the technical aspects of the printing industry. Thanks for the help, Tina."

2008

Testimonial by Justin Cochrane, owner of Health-Eez:

"The work done by Tina was imaginative and creative, and the product I received was both professional and inspired. Tina was helpful and the quality of her work was excellent. I would recommend Tina to anyone."

2008

Testimonial by Robert Cochrane, CEO of "Libuyile":

"The Libuyile project comprised the creation of a full corporate identity including logo, printed stationery, electronic stationery, clothing, presentation, vehicle signage and promotional products. The original design brief was sketchy at best. Tina of Cemek Grafix was able to produce the final products in a professional and mature manner. Tina Kroll's attention to detail is amazing and her ability to lock onto the design requirement despite limited briefing is nothing short of a miracle. The overall quality of work is perfect and the short timescale would have tested major agencies with unlimited resources."

2008

Testimonial by Florian Kroll, family member of Peter Kroll Designer Tiles CC (Peter Kroll himself is no longer alive):

"The Peter Kroll Tiles project involved the re-development of corporate identity and marketing materials. The marketing tools had to reflect the rustic texture, wealth of colours and upmarket quality of the product, and appeal to the architectural and design clientèle primarily served. Tina Kroll of CEMEK GRAFIX produced (amongst others) a set of materials including company

stationery, business cards, direction maps, digital catalogue on CD, flyer and 34-page print catalogue. The design projects accurately reflected the character and diversity of the company's handmade products, and expressed the identity of the business clearly. The formats developed were innovative and eye-catching. CEMEK GRAFIX' ability to develop such a broad variety of quality materials under tight schedules is the reflection of experience, diligence and inspiration.”
